

QMI DRUM & DISC BRAKE FLUID - DOT 4

Benefits

- Meets or exceeds the requirements of Federal Motor Vehicle Safety Standards (FMVSS) 116 DOT 4, SAE J1703 and ISO 4925
- Lubricates
- Features a minimum boiling point (ERBP) of 499°F
- Prevents corrosion
- Improves seal life and performance
- Controls viscosity over a wide temperature range
- Transmits required power
- Minimizes corrosion, low moisture absorption
- Controls proper seal swelling
- Operates over a wide temperature range

Note: Minimum Dry Boiling Point temperature for DOT 4 Rating: 446°F

Packaging

Part #	Container Size	Package
5140	64 ounce / 1.89L	6 per case
