

QMI MULTI-VEHICLE SYNTHETIC ATF

— Fully synthetic

Benefits

- Exceptional anti-wear performance
- Exceptional shudder protection
- Exceptional oxidation performance
- High and low temperature performance
- Provides maximum transmission life and protection from wear, sludge and corrosion.

Description

QMI Multi-Vehicle ATF is a premium fully synthetic automatic transmission fluid offering outstanding performance benefits for virtually every conventional automatic transmission on the road. This well-engineered product is a unique blend of synthetic base oils coupled with a multifunctional additive system for unsurpassed protection and performance.

Inventory Optimizer

QMI Multi-Vehicle ATF is compatible with today's high-performance transmissions. This unmatched compatibility allows inventory simplification and reduces the risk of misapplications.

This premium fluid was engineered to exceed stringent performance requirements of transmission manufacturers worldwide, providing exceptional performance in automatic transmissions manufactured by Allison, General Motors, Ford, Chrysler, BMW, Honda, Mercedes Benz, VW, Hyundai, KIA, Nissan, Mitsubishi, Toyota and others.

— See **Applications**

Performance Testing

Extensive testing demonstrates QMI Multi-Vehicle ATF's exceptional performance both in the laboratory and on the road. This product endures the industry's most severe wear tests to ensure that its chemistry and engineering will continue to meet or exceed stringent performance requirements set by manufacturers worldwide.

Note: Do not use in CVTs.

Packaging

<u>Part #</u>	<u>Container Size</u>	<u>Package</u>
6001	1 quart / 946 ml	12 per case
6002	1 gallon / 3.8 L	4 per case
6055	55 gallon / 208.1 L drum	Unit
