

QMI ALL-PURPOSE CLEANER

— One product cleans everything!

Description

QMI All-Purpose Cleaner is a highly concentrated industrial grade cleaner, formulated with premium components for extremely tough jobs that require extra strength. Superior grease and soil penetration and retention allow this cleaner to tackle a multitude of cleaning jobs. Fast acting synthetic detergents, alkalis and wetting agents combine to utilize powerful cleaning action such as emulsification, saponification and wetting power. Tenacious combinations of grease bonded soils respond quickly to QMI All-Purpose Cleaner. Provides general purpose cleaning when diluted with water, and is a great degreaser when less diluted.

Rinsability is assured. Simply flush with water or wipe off.

Safe

Biodegradable, nonflammable, without noxious odors. Contains no free caustic. Can be used on metal, including cadmium, zinc and other nonferrous alloys

Benefits

- Economical, extremely concentrated.
- Goes into instant solution when diluted with water.
- One heavy duty industrial detergent for most cleaning jobs.
- Non-flammable.
- Biodegradable.
- Excellent for pressure washers and steam cleaning.
- Excellent for tire mark removal.
- May be used in dip tanks
- Use manually, or in automatic scrubbers.

Uses

- Engines, engine blocks, automotive parts.
- Transportation vehicles.
- Industrial equipment and machinery.
- Farm machinery and equipment.
- Restaurant equipment.
- Garage and service stations.
- Automatic washers, portable spray units.

Uses, continued

- Restrooms, lockers
- Produce markets and slaughter houses.
- Tanneries, rendering plants.
- Offices • Showers
- Schools • Concrete
- Floors • Steel
- Walls • Rubber

Directions

For cleaning jobs, from heavy to light, simply increase water dilution. For best results, allow to soak. Dirt will often rinse free. (Spot test on old paint and latex.)

Recommended dilutions:

Cleaning job **Parts All-Purpose Cleaner to water**

First time cleaning on heavy grease and grime (concrete, etc.) 1 to 2 - 1 to 5

Degreasing engine, gear boxes, machinery, etc. 1 to 5 - 1 to 10

Normal maintenance cleaning 1 to 10 - 1 to 15

Light cleaning Dilute according to needs of application

Windows Several drops in a pint bottle

Pressure washers and steam cleaners 1 to 8

Packaging

Code	Container Size	Package unit
ED90	5 gallon pail	unit

Caution: In case of contact with eyes, flush immediately for 15 minutes and get medical attention. If ingested, drink large amounts of water and call physician.
