

QMI WINDSHIELD WASHER CONCENTRATE

— Gets windshields squeaky clean

Description

QMI Windshield Washer Concentrate rids windshields of insects, dirt and road grime. The non-streaking formula leaves windshields invisibly clean. Superior grease and soil penetration readily removes pollutants. Emulsifiers and surfactants combine with powerful detergent action to clean under the most demanding conditions.

Safe

QMI Windshield Washer Concentrate is safe on all surfaces common to vehicles, such as enameled or lacquered surfaces, exposed aluminum alloys, glass, Lexan and plexiglass. Detergents with emulsifiers and surfactants gently combine for safe yet thorough cleaning action.

Precautions

QMI Windshield Washer Concentrate will freeze at temperatures below 32 degrees Fahrenheit (0 degrees Celsius).

Do not use in freezing temperatures!

Features

- Powerful Detergent Action
- Non-streaking formula
- Biodegradable
- Concentrated, one 5 gallon pail makes 640 gallons of windshield washer fluid (non-cold weather)
- Does not attack rubber and other windshield sealing components
- Will not harm glass, paint, plastic or metal
- QMI Windshield Washer Concentrate is nonflammable.
